

Heat Shrink Straight Joints for Polymeric Insulated Multi Core Cables

The kit consists of heat shrink insulating tubes for phase re-joining and an adhesive lined sealing tube for cable protection. The hot-melt adhesive ensures the perfect sealing of the joint. The mechanical protection of armoured cable joints is provided by a joint case.

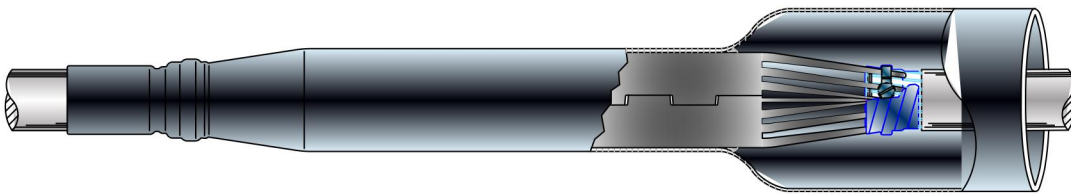

CENELEC HD 623, CEI EN 50393

GLS 50

Elenco dei corredi disponibili per cavo quadripolare non armato con utilizzo di connettori a crimpatura. Connettori non inclusi. / List of kits available for quadripolar cable not armoured with the use of crimp connectors. Connectors not included.
