

HEAT SHRINKABLE JOINTS for SPECIAL APPLICATIONS on MV cables

Universal repair joint kit for 1 core PILC cable and 1 core polymeric cable

Joints used to repair and splice damaged cables. The kit consists of stress control, insulating, double wall insulating-semiconducting, and adhesive lined protective heat shrink tubes. The hot-melt adhesive ensures the perfect sealing of the joint. Available in two versions: with ready-to-use cable piece or long shear bolt mechanical connector.

Compliant with standards

CENELEC HD 629.1 S2, CEI 20-62/1

List of kits available for the version with long shear bolt mechanical connectors. Connectors included.
